

Tilt-Back *-for your child's safety*

SIT Safe AS intends to become a market leader in the provision of safe, comfortable seating for children when travelling by public transport or private vehicles.

Tilt-Back provides what customers all over the world want, when it comes to easy-to-use seating. Functionality with an attractive design.

Tilt-Back is a child seat integrated in the back of a normal bus seat. The seat will normally function as an ordinary passenger seat, and will be transformed into a child seat by a simple operation.
